Education:

Harding University
State Tech Tennessee
Architectural Technology Degree, Memphis State Tennessee

Professional Experience:

Mechanical Superintendent, inCon-trol Corporation
Owner, Acme Sprinkler

Mr. Culbreath has been in the construction industry for 20 years serving in Mechanical Superintendent areas. He is also able to draw upon a wide array of experiences that give him a unique ability to anticipate and work within the construction of a project. He has worked on numerous projects, from coordinating the installation of single trades to managing the multiple trades under a single contract.

Currently Mr. Culbreath serves as the Mechanical Superintendent for inCon-trol Corp. where he is able to walk projects through from pre-construction all the way to completion. This allows him the opportunity to make sure projects are completed successfully with a high level of quality.
